XGLOSS is the new family of polished Dekton® surfaces that presents an extraordinary crystalline shine. A unique new finish, this polish offers a radiant sparkle unlike any other, while maintaining the well-known physical resilience of Dekton.

The strength and resistance of XGLOSS exceeds that of most other surfaces on the market. Through months of technological development, Cosentino has pioneered a Nanocoating treatment specific to Dekton® that gives XGLOSS unmatched water repellent and stain resistant properties. This process is done without adding any other protective layers to the surface of the product and is smooth to the touch.

## DEKTON ULTRACOMPACT SURFACE

### LARGE FORMAT INFINITE POSSIBILITIES

Thanks to the size (up to 3200 x 1440 mm) and the lightness of Dekton® (from 8 mm thick), the design possibilities for your kitchen, bathroom, façade, walls or high transit floors are growing exponentially.

### IT RESISTS EVERYTHING

Extremely resistant to scratching, virtually zero porosity and highly resistant to aggressive chemical products.

### RELENTLESS IN HEAT

Extreme resistance to high temperatures, cookware fresh off the hotplate and UV rays.

### UNLIMITED INSPIRATION

Design your modern kitchen with eye-catching colours and unique textures. Large format for new compositional solutions.

### A WORKTOP TO BE ENJOYED

Easy maintenance, no traces of fingerprints or marks and maximum durability. Your Dekton® worktop is guaranteed for 10 years.

# WHAT IS DEKTON?

Dekton® is a sophisticated mixture of raw materials used to make glass, latest-generation porcelain tiles and quartz surfaces.

Dekton® emulates in a few hours what takes nature thousands of years, through an exclusive technological process.

## PST PARTICLE SINTERING TECHNOLOGY

PST is a process that sinters mineral particles so that they link up and change their internal structure.

PST technology completely synthesises innovative procedures from the most advanced technology industries. This evolution represents a technological and industrial leap capable of generating a new process, a revolutionary material and a leading product.

Dekton® uses the exclusive PST technology, a technological process that uses an accelerated version of the metamorphic changes that natural stone undergoes from exposure to high pressure and high temperatures for thousands of years.

The electron microscopy can appreciate the reduced porosity of the material, due to the sintering process and exclusive ultra-compaction of Dekton®. It is virtually zero porosity and the non-existence of the microflaws that cause tension and weaknesses set Dekton® apart from other materials.

## ULTRATHICKNESS

Dekton® slabs come in different thicknesses so that you choose the most appropriate option depending on the application, design or desired effect, from 0.8 cm to 2 cm.

□ KERANIUM - TECH Collection

## ULTRASIZE

Thanks to the size and the lightness of Dekton® (up to 1440 x 3200 mm), the design possibilities for your kitchen, bathroom, façade, walls or high transit floors are growing exponentially.

□ HALO - XGLOSS SOLID Collection

---

## STAIN-RESISTANT

---

Because of its virtually zero porosity, the new surface Dekton® is highly resistant to everyday domestic stains and chemical agents. Even the most stubborn stains such as wine, coffee, ink and rust can be easily cleaned.

Splashes and drops of everyday cleaning products such as bleach or degreasing oven cleaners do not cause any harm to the material.

---

## SCRATCH-RESISTANT

---

Dekton® is a surface that is virtually impossible to scratch. Household utensils and other sharp objects do not scratch the material. However, we recommend the use of cutting boards to prevent blunting any household utensils.

---

## MAXIMUM RESISTANCE TO FIRE AND HEAT

---

Dekton® has very good resistance to high temperatures without affecting its aesthetics or its properties. Hot utensils, appliances, pots and pans can be placed directly on the surface without any danger or harm.

---

## COLOUR STABILITY

---

The Dekton® manufacturing process allows us to control the pigmentation and aesthetics of the material, giving it a better colour consistency in all slabs.

The result is a product that does not fade over time. Once fitted, the surface will maintain its appearance throughout the life of the product.

# KITCHEN WORKTOPS

---

DEKTON® is a long-term product for those looking to turn their kitchen into a unique space. It allows greater potential for installation in one piece with no cuts, no joints and no limits. It has the appeal of a completely uniform surface, which fits seamlessly into very different design styles.

DEKTON® combines the qualities expected by the chef in all of us. It is a clean surface that is nice to touch and resistant to all the daily grind that takes place in a kitchen over years of use. It is an ultra-sophisticated material for busy everyday life, capable of creating spaces that make the day to day preparation of food

a pleasant experience that precedes the pleasure of sharing a meal with friends or family.

It represents beauty and solidity with easy, fuss-free cleaning. The structural density of DEKTON® is a breakthrough in engineering, but what really matters is that you do not have to worry about scratches, stains or traces of heat. A simple wipe with a cloth is all it takes, because the kitchen should be enjoyed with no restrictions, this is the DEKTON® way of thinking.

# DEKTON APPLICATIONS

DEKTON® is a unique and leading product that is evident in all fields, in all spaces, indoors and outdoors and all scales. Endless possibilities so that the design flows.

## HIGHLY UV-RESISTANT

Dekton® is highly resistant to ultraviolet (UV) rays and its colour does not fade over time, which makes it a perfect material for both indoor and outdoor use.

# OUTDOOR KITCHEN COVERING

## Cook with the sky as a roof

Cooking is definitely a pleasurable experience and doing it outdoors usually results in a small social event. DEKTON®, due to its ultra-compact structure, is particularly suitable for installations for outdoor kitchens and barbecues.

DEKTON® provides strength and style to these spaces, it gives them an undeniable personality and unlimited practicality. Stains, bumps, utensils and high temperatures.. Diekton® will resist demanding use over time while maintaining its unchanging beauty.

It is not affected by ice, sun, sleet, or wind either. When bad weather arrives, DEKTON® simply needs an effortless, fuss-free clean with a cloth.

# BATHROOM WALL CLADDING AND WORKTOPS

---

The bathroom is the space in the home where hygiene and harmony need to express themselves in the best possible way. A space for personal hygiene and care, which helps us experience pleasant and relaxing moments, where sensations are literally at our finger-tips.

DEKTON®, thanks to its virtually zero porosity, is completely waterproof for liquids. Water glides

smoothly over the surface without ever penetrating. This, along with unchanging beauty, results in extremely easy cleaning.

Their textures and colours are an endless source of inspiration for the design of water-related areas, we're talking about DEKTON®, its possibilities are endless.

# DEKTON WARRANTY

Dekton® is the only brand that offers a certified warranty in writing. Only a global leader, due to the company's position as the largest producer of quartz surfaces could once again draw ahead of the pack and offer a real 10-year warranty for Dekton®.

Dekton® presents its new 10-year warranty. A guarantee to give consumers more confidence. Once again Dekton® proceeds to innovate. The guarantee of the leader.

## Warranty terms and conditions \*

10-year Warranty for Dekton® products installed by a workshop or stone mason:

1. For the warranty to take effect, the user must produce proof of purchase.
2. The warranty does not cover defects deriving from manufacturing or installing the product, as such operations are not performed by Cosentino.

\*See specific warranty conditions.

## CERTIFICATES

Dekton® is internationally certified to ensure maximum safety and protection.

## Greenguard

Dekton® by Cosentino has been analysed by Greenguard, proving that it does not emit any VOCs and thus has achieved certifications for both Greenguard Certified.

## NSF

Certification that substantiates that the product is safe for the health in hygienic terms.

\*\*To see the list of colours that are in force under this certification, visit: [www.nsf.org](http://www.nsf.org)

## ETA

Dekton® by Cosentino is being evaluated by the ITeC (Instituto de Tecnología de la Construcción de Cataluña) as a product for ventilated façades.

## ISO 14001

Accredits the efficiency in the use of water systems and the control of environmental risks.
